The first thing that came to my mind when watching this. was how badly i wanted to take some form of sharp object to that stupid little swirl on his forehead. >_>

To resemble that of a monkey's? It kind of reminds me of a monkey's curled fur

If you need a thing to drool and grope over, next time you take a shower, look in the mirror. You'll be surprised what you can find when u take a first time look at your own naked body... (lol)

Wow, this Anime is GREAT!=) If you're a bit weary of trying new anime, don't be! So far this anime has a really interesting plot & is kinda funny. And FINALLY a main character that's open for his love on boobs!

The single thing that bugged me most was that offhand comment about potatoes. This is Japan in 1561. Potatoes are a New World crop. The likelihood that anyone from that time routinely ate them is next to zero. Historical accuracy RAGE!!

Well, Latin American missionaries were in Japan since at least the 1300s I think..... maybe they could've brought potatoes.

... I thought that the appearance of Soccer goals would be a more obvious sign of anachronism than a stinkin' swirl on his forehead. But another is repeating the MST3K Mantra ("It's just a show, I should really just relax.")
